Managing your roster can help you manage your organization efficiently. The roster gives you the ability to add/remove members, assign leadership positions, manage access to Involvement Network tools (ex: forms, event submissions, etc.). Within this guide, you will find the following information to help you utilize the Roster feature:

- Accessing the Roster
- Inviting members
- Approving memberships
- Ending memberships
- Assigning member positions
- Creating/updating organization-specific positions
- Updating new Primary Contacts

**ACCESSING THE ROSTER**

1. Log in to the Involvement Network at [http://involve.uga.edu](http://involve.uga.edu).
2. Select “Manage” from the menu next to your user icon (top, right corner).
3. Search & Select the Organization you would like to manage.

4. Select the menu on the left-hand side of the page.
5. Select “Roster.”
INVITING MEMBERS

1. If the member you are updating does not appear on the roster, select the blue “Invite People” button at the top of the page.

2. Add the member’s email address to add them to the roster. To ensure the member will receive the invitation, you can confirm their email in the UGA Directory (https://peoplesearch.uga.edu/).

   You may enter up to 500 e-mail addresses in the textbox below. Please use school-associated e-mail addresses (.uga.edu) and either separate them with commas or enter one address per line.
3. Be sure to select the type of invitation (i.e. Member, Staff, etc.) and hit the blue “Send Invitations” button.

Invitations will be sent to:

Invite as  Member ▾

involvement@uga.edu

SEND INVITATIONS  CANCEL

Return to Top
1. After navigating to the organization’s roster, scroll down to the “Manage Roster” section. You will see lists for current, pending, and prospective members. "Pending" members are those who have been invited to join the organization but have not yet accepted that invitation. "Prospective" members are those who discovered your organization and have indicated they would like to join.

2. To notify a pending member of their invitation, check the box to the left of each individual and click “Resend Invitation.” For prospective members, navigate to the “Prospective” tab and review the users who are awaiting membership approval. Click “Approve” or “Deny” to make a decision about that user's membership. You can also send any prospective member a message by selecting the checkbox to the left of their name and selecting “Send Message.”
1. After navigating to the organization’s roster, scroll down to the “Manage Roster” section of the page. Locate the member(s) you would like to remove and check the box on the far left of the members' names. Click “End Membership” at the top of the user list.

2. A confirmation box will appear to let you know that ending this user's membership will also remove all of their positions and permissions. Click "End Membership" to confirm the deletion.
ASSIGNING MEMBER POSITIONS

1. After navigating to the organization’s roster, search for the member you want to assign a position to. Select the pencil icon beside the member you would like to assign a position to. A list of all available Positions will populate. Click the check box next to the position you would like to add or remove from that user, and then select Save. The user’s permissions within the organization will be updated based on the Positions they hold.

Return to Top
CREATING/UPDATING ORGANIZATION-SPECIFIC POSITIONS

1. After navigating to the organization’s roster, select “Manage Positions” at the top of the page to add and/or edit positions and their access to the organization’s Involvement Network page.

2. You can create a position or edit position permissions by selecting the title of the position. Member and Primary Contact cannot be changed.

3. From here, you can name the position and/or determine how much access is permitted. For example, you may want your Advisor to have “All Access” but you may want your Events Chair to have “Limited Access” to certain functions, such as events.

   Users who fill Positions with "No access" will not be able to manage any tools within the organization. "All access" allows Position holders to manage every tool within the organization's site - these are the users who will have the most power within your organization. Limited access allows you to select the level of access the Position should have for each tool within the organization site. When you are finished determining the level of access for the position, click “Create.”

   **Note:** Once the position has been created, it may take a few minutes before it can be assigned to a member.

   **Tip:** If you do not see the position immediately, give the system a few minutes while the position is being generated.
See below for information about what each level of access will allow for each tool.

UPDATING NEW PRIMARY CONTACTS

Note: After updating the new primary contact, you will likely lose the current level of access you have to the organization’s page.

1. To update the Primary Contact, ensure the member you would like to make the new Primary Contact is already on the organization’s roster using the search function. If the member does not appear on the roster, follow the instructions for Inviting Members.

2. After ensuring the member is a part of the organization’s roster, click on the pencil next to the Primary Contact.

3. Search and Select the member you would like to make the new Primary Contact. The selected member will become the Primary Contact and will have full access to manage the organization page moving forward.
